Advanti Racing 2011

Advanti alloy wheels are constructed using the latest high-tech processes together with superior raw materials and high quality finishes. All Advanti wheels are rigorously tested to perform under high stress loads. They are also certified and conform to all international standards including the strict JWL and TML standards.

Formula One is the pinnacle of motor sport and a harsh environment where extreme demands are made of driver and car. Advanti Racing alloy wheels are the official supplier of wheels to team Scuderia Toro Rosso. When you fit Advanti wheels to your vehicle you get the ultimate combination of international style, and race-bred technology from the track.

WARRANTY

Advanti Racing alloy wheels come with a comprehensive warranty. All wheels are covered for one year on wheel face finish and ten years on construction from the date of purchase under normal, reasonable and intended use. This covers any defects in materials or workmanship.

Please note that this warranty does not apply to wheels that have been altered or repaired. Wheels must be fitted by a professional, and mounted correctly taking into account tyre sizes, vehicle load and tyre inflation pressures. Warranty is only applicable to the original purchaser with original purchase receipt.

Please visit wheeldemon.com.au for more information on wheel fitting, after purchase care, and warranty. On wheeldemon you will also find retailers who can assist with wheel fitment.

WHEELDEMON

The best place to get the latest news and information on the wheel brands in this catalogue is wheeldemon.com.au. This includes member galleries with voting and comments, videos, galleries and downloads. We also have the world's most advanced custom wheel fitting application called Kustomizor. (launching January 2011)

The Kustomizor online application makes seeing alloys on your car easy and fun. Using the latest touchscreen ready, 3D technology, Kustomizor takes the guesswork out of wheel selection and allows you to share your creation via email, facebook and more. Go to wheeldemon.com.au and sign up today!
